

Alexandria Gazette.

THURSDAY EVENING, NOVEMBER 3.

LOCAL NEWS.

For this section fair weather, light variable winds, and slight changes in temperature.

TRANSFER OF THE SHIP YARD.—The Arrow Steamship Company to day transferred to the Alexandria Marine Railway, Shipbuilding and Coal Company, from whom they recently acquired the property, the large ship railway and yard lying to the south of the ground on which the foundation for the proposed steamer Pocahontas has been laid, retaining the latter ground, the steam power, railway and pier privileges, certain necessary shop and molding loft spaces and the office room they now occupy. It is understood that the Arrow company have had the release of this part of the property under consideration for some time past. The officers of the Arrow company say the property they have surrendered is of no value to them, as they have no present use for the land and do not wish longer to engage in repairing vessels. They say they wish to devote their time and money to the construction of the Pocahontas, and that the surrender of the property named will in no wise interfere with this work, but will really aid them.

Having surrendered the railways the company had no further use for the men employed in operating them, so this morning discharged them all. Mr. A. H. Agnew, who for some time past has been operating the small ways at the yard, has assumed the management of the large ways also, and will operate them both. This morning he employed such of the men who had been discharged as he had work for.

PERSONAL.—Hamilton Rogers Fairfax, of New York, and wife, nee Miss VanKensler, who recently returned from their European tour, arrived in Leesburg, on Tuesday, where they were met by Mr. Henry Fairfax, the groom's brother, and conveyed in his four horse "break" to "Oak Hill," ten miles south of Leesburg, the elegant home of the last named gentleman. —*Mirror.*

Mr. J. T. Luckett, who was injured at Charlottesville some time since by falling from a car, and who has been at Rapidan since, has returned to his home in this city and will shortly resume his duties in the Midland Railway office.

Mr. Frank Lambert, of this city, and Miss Hattie Bird, of Charles county, Md., are to be married on the 15th inst.

Mr. Benton Burroughs and Miss Mary V. Tatepau, both of this city, were married in Ascension Church, Washington, yesterday. The newly-married couple returned to their home, in this city, last night.

THE LIFE BOATS.—The force at the Norton shipyard having finished and launched the boat built for the U. S. Navy, will now proceed to finish the two life-boats at present being constructed for the English and French governments. The English boat will be fitted with a 16-horse-power engine and a 30 inch screw—the first steam life-boat ever built. Work will also be continued on the 60 foot yacht, now well under way, and she will be launched this winter. It is very probable that the United States steamship Albatross (now at the Washington navy yard) will take with it at least one of the Norton life-boats when it leaves for the Pacific coast. The life boat which was launched here on Tuesday was built under a conditional arrangement with Secretary Whitney that it should not be accepted unless fulfilling the requirements of the service. The boat has been taken to the Washington navy yard for trial, but no official action has been taken in regard to its inspection.

POLICE REPORT.—Last night was clear and cool with six prisoners and seven lodgers at the station house.

The Mayor this morning disposed of the following cases:

Sam Tennessee and John Hughes, arrested by officers Simpson and Davis, charged with being drunk and disorderly, were discharged.

Jas. Warren, John Simmes and another young man, arrested by officers Ticer, Jones and Taylor for disorderly conduct, were fined \$1 each.

A young man, arrested by officers Price and Henry, charged with disorderly conduct in the Third ward last night, had his case continued till to-morrow.

Henry Davis and O. Nightingill, arrested by officer Bontz for fighting in the First ward yesterday evening, were fined \$3 each.

DEMOCRATIC MEETING IN THE COUNTY.—One of the most enthusiastic political meetings ever held in the county took place last night at Walker school house, near the center of the county. Excellent speeches were made by R. Walton Moore, of Fairfax, and S. G. Brent and Judge Stuart of this city. To-night a meeting will be held at Slater's school house, in Jefferson District, and on Friday night at Carne school house, in Washington District, the extreme northern end of the county.

DIED FROM HIS INJURIES.—A little four year old boy named Cornelius Coleman who lived across the canal, was so badly burned a few nights since by his clothing taking fire from a stove, that he died from his injuries last night. The child had been left alone in the house and when his clothing caught fire, ran out of doors in a light blaze. A colored girl, named Emma Baker, ran and hastily tore the burning clothing from him, but he had been burned so badly that death resulted.

CANNON BALL TRAIN.—A "cannon ball" train will be put on the Piedmont Air Line on the 15th instant. It will be a solid train between New York and New Orleans, and composed of all drawing room and sleeping cars. The train will stop at only the principal points along the route. The local business will be done by two other trains as now which will make three daily trains over the road.

ARRIVED SAFELY.—The steamer Sue, about which so much anxiety was felt, arrived at her wharf in Baltimore yesterday. The Sue left this city Sunday afternoon at her usual time. She proceeded as far as St. Mary's river, where she lay twenty-four hours. Captain Geoghegan started to put out once, but the waves were so high he could not make any headway.

KILLED.—Information has been received here of the shooting and killing of a man at Broughton, Ohio, a few days since, by a former resident of Occoquan, named Plumley. Plumley has charge of Pettit & Driggs' stove factory there, and recently discharged the man when he was threatened by the latter. A difficulty ensued during which Plumley shot the man three times, killing him.

ROW.—Last night in the northwestern part of the city a row took place among a number of politicians, white and colored, that at one time looked like it would result seriously. Much excitement prevailed and a fight seemed imminent when the police arrested the man they supposed to be the leader, after which quiet prevailed.

COLUMBIA S. F. E. Co.—The regular monthly meeting of the Columbia S. F. E. Co. was held last night, W. A. Smoot, president, in the chair, and John H. Strider, secretary.

The Chief Engineer was invited to address the meeting in regard to organizing a Council of O. A. F. A committee was appointed to receive the names of those desiring to become members of the same.

Mr. Thos. Downey, on behalf of the Phoenixville Hose Co. No. 1, of Phoenixville, Penn., presented the company with a handsomely framed picture of a group of their members which was received and the thanks of the company was extended to their Phoenixville friends.

A resolution was adopted thanking the Hydraulion S. F. E. Co. for their invitation to accompany them on their late trip to Richmond.

The engineer informed the company that the engine had been thoroughly overhauled a short time ago, but owing to the bad condition of St. Asaph street from King to Prince, was rapidly being knocked to pieces and that in a short time it would necessitate the expenditure of several hundred dollars for repairs. The City Council was requested to make some repairs on said square.
